

Interchange 2011 (October 24 & 25)

More, more, more. That's what you're being asked to deliver. More services, more products, and more regulatory reporting.

We can help. Interchange 2011 offers new products, new product features, partners, roadmaps, feedback sessions, a hardcore technical session, a user group meeting, a few prizes, a chance to network, and more. All in the span of two days.

For this year's event, we are excited to bring you a host of industry speakers including Aron Gampel, VP and Deputy Chief Economist at Scotiabank and Gord Mooney, Chief Operating Officer at General Bank. We've also changed up the format to include a "birds of a feather" type session for the hardcore techies among us. And most important, a chance for you to give your feedback—something we're calling "Interchange @ Interchange".

All the registration information you need is on the next few pages.

See you there!

New This Year!

Nerds of a Feather (9:00 am - 12:00 pm)
Spice 2 Meeting Room

For the more hardcore techies among us, this interactive session will cover topics like Type II storage, database optimization, virtualization, VAST, implementation methodologies, DRP, process optimization, and more. Talk directly to our technical team.

(Note: Pre-registration required)

Interchange @ Interchange (2:00 pm - 3:15 pm)
Truffle Ballroom

This is an interactive breakout session. SIT will facilitate separate group discussions of all major modules. And you can roam from group to group if you wish.
